Formulas

9/25

$$A = l \times w \quad \square \text{ or } \text{rectangle}$$

$$A = bh \quad \rightarrow$$

$$P = 2(l+w) \quad \text{or} \quad P = 2l + 2w$$

$$A = \frac{1}{2}(b_1 + b_2)h$$

$$V = lwh \quad \text{cube} \quad \text{rectangular prism} \quad \square$$

$$A = s \times s \quad \text{or} \quad A = s^2$$

$$A = \frac{1}{2}bh \quad \triangle$$

$$A = rt$$
